Illinois, as with many other states, requires criminal background checks through the State Police for licensing and registration in varied industries. Although The Peeler Group provides criminal record checks through the Illinois State Police we suggest that you first clear your applicant through our National Criminal Record Check.

The Benefits of the National Record Check

- By pre-screening applicants through the National Criminal Check you may save both time and money.
- Our National search includes county level searches of 45 of the 102 counties; including some of the largest populated areas such as Cooke County and Mclean County.
- *The National Criminal Search takes minutes not days or weeks to find the information you require.*
- In addition to this we check depositories for Corrections and the Sex Offender Database, as well as verify the social security number provided by the applicant. Not to mention the thousands of records checked nationwide.

How it Works in Saving You Time and Money

When you pre-screen an applicant through the national criminal search you may: 1) Continue to the State Police Criminal Search, or 2) Discontinue Further Searching if derogatory information is found that will eliminate the applicant due to the requirements of the law.

Illinois National

What You Get From Illinois in Our National Criminal Search

Department of Corrections

Description: Statewide felony convictions on persons found guilty and sentenced to serve time and/or subsequent probation in a state penal institution; Includes probation and parole information where applicable. This file contains records on approximately 280,000 persons.
